

## Corporate Sustainability Internship

Pure Strategies is seeking Interns to contribute to our team that is transforming business to create a more sustainable future for all. Corporate sustainability interns build their skills in corporate sustainability while supporting broader industry change to realize meaningful environmental and social improvement. Interns will gain hands-on research, analysis, and presentation experience while also learning how businesses are taking action to improve their sustainability performance. The learning focuses on insights and best practices in areas that may include:

- Nature and biodiversity strategy (e.g., standards, programs, and goals)
- Climate strategy (e.g., standards, goals, and pathways)
- Sustainable packaging (e.g., circular economy)
- Sustainable agriculture (e.g., regenerative agriculture)

Professional development is another component of this internship position, and is provided through ongoing mentoring, networking, and education opportunities. For more information about Pure Strategies, please visit <https://purestrategies.com/>

### Required Qualifications:

- A track record of working independently, critical analysis, and collaboration
- Proficient with PowerPoint, Excel, and Word
- Oral and written communication skills (e.g., slides-based presentations like PowerPoint or other)
- Desire to contribute to industry best practices while expanding personal knowledge of current sustainability trends
- Commitment to an equitable and just economy
- Minimum of two years completed education, towards a degree related to sustainability
- Reliable access to a computer and internet (an internet stipend can be provided, if needed)

### Desired Qualifications:

- Positive, self-motivated, organized, and creative individual
- Knowledge and understanding of corporate sustainability, the global issues of sustainability, and sustainable development goals
- Graduate students in an MBA program or in a sciences or sustainability area of study
- Experience conducting literature reviews; collecting, organizing and analyzing data; and benchmarking corporate activities

This is a paid, remote, home-based position with an expectation for 15-20 hours/week starting early June and ending in late July or early August. Preference for candidates located in the Eastern or Central time zones. Please submit current résumé and cover letter, including 2 professional or academic references to: [intern@purestrategies.com](mailto:intern@purestrategies.com) with the subject heading: Corporate Sustainability Intern.

The deadline to apply is March 7. Interviews will be conducted in mid March and will continue until all openings are filled.
